

# iSHALA FOR ANDROID PRIVACY POLICY

## **Why is the Read Phone State flag set ?**

iShala for Android requires that permission to be informed when a call is being received/passed. That way it can react accordingly and stop playback. We do not use nor store any further information from your device. Neither do we disclose any such information to third parties.

## **Contacting us**

Should you have any further question regarding our privacy policy, feel free to email us to [info@swarsystems.com](mailto:info@swarsystems.com)
